

SELF-ADHESIVE NON-SKID TAPE

The self-adhesive non-skid tape is designed with carborundum (silicon carbide) particles over a plastic and adhesive film, acrylic base. The carborundum has a diamond structure and it is almost as hard, long-lasting and resistant as such, being ideal for intense movement of people in public transport, shopping malls, airports, parking lots and areas where significant adherence is required. The self-adhesive non-skid tape is conformable and it adjusts to different substrates, such as mosaics, marbles, lumber, ceramics, Italian porcelain tiles, vinyls, metals. Its simple mode of application turns this tape into an effective and fast method for preventing bumps, falls and injuries in people, tools and equipment.

Specifications and Presentation

Feature	Unit	Value
Tensile strength	N/cm	≥ 19
Adhesion to steel	N/cm	≥ 2
Tack	cm	< 3
Thickness	µm	700
Dimensions	mm x m	25 x 5
Color		Black

Applications

It can be applied on different surfaces, both on internal and external ones.

- Surfaces with intense movement of people or vehicles (hallways, stairs, manufacturing areas, ramps, mechanisms for disabled persons, kitchens, restrooms, lift entrances, etc.)
- Schools, industries, public areas, offices, shopping malls, airports, theaters, movie theaters, public transport, hotels, playgrounds, supermarkets, swimming pools and water parks, etc.
- Tools, equipment, machines, fitness equipment. Tour buses, cruises, trucks, trailers, passenger stairs, large or small vehicles.

Instructions for Use

The surface shall be free of dust, liquids and oily substances. Apply the tape by pressing down the adhesive side onto the surface.

Warranty

TACSA warrants this product for one (1) year of storage in its original package. Do not store at temperatures above 30° C.

The provided information is based on experimental results under controlled temperature and humidity conditions, and its repetitiveness depends on external conditions, application methods and tools used. TACSA shall not be held liable for any loss, injury, damage or detriment resulting from an incorrect handling or misuse of the product. Its suitability shall be previously determined for the intended purpose.
