

NON-ADHESIVE PVC REFRIGERATION TAPE

The non-adhesive PVC refrigeration tape is used for coating air conditioning and refrigeration ducts. It grants excellent stretching, flexibility, tensile strength and high weatherability properties. It is easy to cut and, since it is non-adhesive, it is easy to remove.

Specifications and presentation

Feature	Unit	Typical value
Tensile strength	N/cm	15
Stretching	%	≥ 125
Working temperature	°C	0 - 90
Thickness	mm	0,100 ± 0,01
Dimensions	mm x m	70 x 20
Colors	White, Black, Grey Brown, Brick-Red	

Structure

Applications

Coating and protection of air-conditioning and refrigeration ducts.

Instructions for use

Place the tape maintaining a uniform tension along the cooling ducts, so that it adapts to the surface to be covered. Place adhesive tape at the beginning and at the end of the application.

Warranty

TACSA warrants this product for one (1) year of storage in its original package. Do not store at temperatures above 30° C.

The provided information is based on experimental results under controlled temperature and humidity conditions, and its repetitiveness depends on external conditions, application methods and tools used. TACSA shall not be held liable for any loss, injury, damage or detriment resulting from an incorrect handling or misuse of the product. Its suitability shall be previously determined for the intended purpose.
