

CABLE STAPLES

TACSA cable staples are made of plastic and of treated steel nails, which are perfect for a long-lasting and safe fastening. The nail head's special configuration and its pyramidal tip grant flawless properties when it comes to obtaining a permanent fastening without causing damage both to the application surface nor to the staple. Its circular, square and double-nailed varieties grant great fastening adaptability, and are suitable for interior use, they are discreet and aesthetically balanced.

Presentation

VARIETY	STAPLES (N°)	U. X CASE	CASES X BOX	COLORS
